Paseo Community Development District **Hurricane Irma Preparations - UPDATE**

As we continue to closely monitor the path of Hurricane Irma. The District has taken measures to ensure that all Hurricane Preparedness Plans are in place. We would like to inform the residents of Paseo of some of the steps that have been taken and are still in progress:

- **Fountains** - All fountains will be shut off on Friday prior to the end of the day in order to protect them from possible damages due to surges and the loss of power.
- **Furniture** – We have arranged all furniture to be removed and stored off-site. This process was started yesterday. All furniture will be returned once the storm is over.
- **Street Lighting** – We have arranged for the service company to be onsite today in order to conduct any repairs needed to the street lighting.
- **Irrigation Pumps and Timers** – All of these systems will be turned off as of the close of business Thursday.
- **Guardhouse** – Securitas has notified the District that due to the severity and size of the storm due to safety concerns the last guardhouse shift will now end at **3:00 PM on Friday, September 8, 2017**. Once the last guard on shift leaves the Guardhouse will be closed and secured. Furthermore, the gate arms will be removed and stored. Once the storm subsides and the roads allow access to Paseo, the arms will be put back on and the Guardhouse will be staffed.

The District will provide further updates as we receive them.
