VOICE MESSAGE SYSTEM

Use the Voice Messaging System to Pre-Clear visitors for single visit occurrences. A resident can call **239-225-0845**, and when prompted, simply say the name of their expected guest. When the guest arrives, the guard will be alerted to the message on your “Resident page“, he will hear your voice message and grant entry without calling the resident. If calling from your **Primary or Secondary Phone Number**, the resident does not need to identify themselves, the system recognizes the phone number making the call and puts the voice message on the correct “Resident Page”. If calling from a number **other than your Primary or Secondary Phone Number**, the prompts will ask for your Primary Phone Number and your PIN#. The default PIN# is 1-2-3-4. Use the attached Resident Transponder Registration Form (Page 2) to change your PIN#. **To Pre-Clear a visitor using the Voice Messaging System, call 239-225-0845.**
